Dear Steve,

I am happy to write this letter of recommendation for Globe Midwest. Our Resort suffered a large fire that significantly damaged one of our buildings. While I was President, the board decided to hire Globe Midwest and I am very glad that we did.

The facts speak for themselves! The Lead Adjuster, Craig Becker, more than doubled the original offer on the building. He was able to prove to the insurance company that the scope of the damage was much larger than their adjuster had calculated. **If we hadn't hired Globe Midwest, we would have walked away from hundreds of thousands of dollars by relying on the insurance company's people.**

Lesson well learned! Anyone going through a large property claim should get their own expert help and not accept offers at face value. I wholeheartedly recommend Globe Midwest Adjusters International; they did an outstanding job!

Sincerely,

Ken Kwantes
