

January 24, 2019

To Whom it May Concern:

We would like to recommend Globe Midwest Adjusters International as a reliable company in representing the insured effectively and responsibly to any insurance company.

In February, 2017, we were abroad when our home and the adjacent library went up in flames in the middle of the night. The destruction was total; for what was not consumed by fire was damaged by smoke and soot. Our son, who resides in Detroit, hired, on our behalf, Globe Midwest Adjusters International to represent us in handling our claim to Allstate. He did so upon the advice of friends, whose counsel was sound and proved to be very beneficial.

The battle with Allstate was uphill and the 2 GMAI representatives who handled our case, Mr. Larry Fucinari and Ms. Karrie Thomas, were relentless throughout the process of recovering what was due to us over a period of close to 2 years. They were sensitive, considerate, and at the same time firm and professional in guiding us in combating the strong resistance of the insurance company to honor their contractual obligations.

We are very thankful to have had GMAI as our representatives in every step of the way and we highly recommend them to anyone who will need their services, God forbid.

Sincerely,

Rabbi Avraham & Devorah Shoshana
