*"Excellence, Excitement, and Experience"*

November 27, 1990

To Whom It May Concern:

The School District incurred extensive damage at a school building as a result of vandalism and arson. Assigned with the responsibility of determining the value of the loss and negotiating settlement of the claim with our insurance company, we sought assistance of Globe Midwest.

Robert Levin of Globe Midwest worked closely with school officials and the school's architect to develop a very concise, well documented and accurate Statement of Loss. Bobby's professionalism, knowledge of insurance policies, law and attention to detail enabled the school district to settle the claim for an amount we felt was extremely fair to both the school district and the insurance company.

Although Globe Midwest's fee was based on a percentage of the final settlement, we were never pressured into negotiating a settlement for more than we felt was fair.

If property insurance issues should arise again in the future, we would not hesitate to call upon Globe Midwest for assistance.

Sincerely,

SAGINAW TOWNSHIP COMMUNITY SCHOOLS
