The Greenspan Co./Adjusters International
Kenny Taylor
5000 Hopyard Blvd, Suite 302
Pleasanton, CA 94588

To all who may have the same problem as me?

The problem is getting taken by the insurance companies, The individuals at The Greenspan Co./Adjusters International do not let that happen. Hire them upfront Do not wait around like I did as It only makes the settlement time frame longer.

The Greenspan Co./Adjusters International contacted me right after my fire loss in May 2012 to offer assistance on the claim but I thought how hard could it be to handle the settlement process myself. Little did I know!

I met with the insurance company and almost the first words from them was warning me about all these public adjusters with their high fees that would be calling me. The insurance adjuster advised me not to listen, as the insurance company had my best interest at heart and would make me whole for my losses.

After a few months of back and forth, the insurance company was becoming much harder to get a hold of and response time was getting longer. Finally, they said their experts had finished and that the total damages were in the \$650,000 to \$700,000 range. My policy was for \$1,680,000 plus loss of rents, smoke damage on the 20% of the building remaining and loss of inventory.

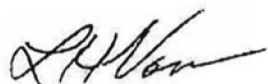

The Greenspan Co./Adjusters International had stayed in touch, net being pushy, but just, hey we are here! I told myself that it was time to talk with them. We met and made a deal. Their commission was not even close to what I was told by the insurance adjuster. I signed the agreement and immediately got my life back along with the time to run my ongoing business,

The Greenspan Co./Adjusters International individuals were professional, kept me completely informed during the process and especially had a stable of experts much better than the Insurance companies. The Greenspan Co./Adjusters International knew every leaf to overturn that I would never have found. It was a pleasure watching Kenny Taylor prepare and present for payment to the insurance company all the large and small items that the insurance company would have never told me were insured.

I settled the claim at full policy value plus some extras all because of Kenny Taylor and the other The Greenspan Co./Adjusters International professionals.

I highly recommend Kenny Taylor and The Greenspan Co./Adjusters International team. Get them in early, and let them do their magic. You will not regret it!

Sincerely,

L.H. Voss Trustee
